

Annual Survey Child Count Guide

TITLE I, PART D, SUBPART 2 – LOCAL EDUCATIONAL AGENCY
DELINQUENT INSTITUTION

Use any browser to access the [Annual Survey Child Count](#).

Introduction

1. Read the "Introduction."

The U.S. Department of Education (USED) requires this annual child count. It provides the USED with the data necessary to generate for fiscal year 2018 (school year 2018-19) funding for use in locally operated neglected and delinquent institutions. Children residing in neglected facilities operated by Local Educational Agencies (LEA) generate Title I, Part A funds for use in the "Neglected" set-aside category in GMAP. Children residing in delinquent institutions operated by a LEA generate funds for Title I, Part D, Subpart 2 delinquent programs. Youth residing in neglected or delinquent institutions, community day programs, or adult correctional institutions operated by the Department of Juvenile Justice or the Department of Corrections, generate funds for Title I, Part D, Subpart I.

ANNUAL SURVEY OF CHILDREN IN LOCAL INSTITUTIONS FOR DELINQUENT CHILDREN

The purpose of this annual survey is to provide the state educational agency and the U.S. Department of Education with current information on the location and number of children living in institutions for delinquent children. The information collected will be used for purposes of computing allocations for counties and local educational agencies as determined by Title I, Part D, Subpart 2 (delinquent programs) of the Every Student Succeeds Act (ESSA). Failure to submit this report will result in the loss of funds to the local educational agency to provide services to meet the special educational needs of the children residing in this institution. **Institutions in which education is provided by a state agency should not be included.**

In some cases, education for children in a state operated institution is provided by the local educational agency. The institution should be included in this survey of children in local institutions unless there are specific arrangements for reimbursement from the state agency responsible for providing free public education.

A separate report should be completed for each institution that meets the eligibility requirements.

Process for verification and data validation:

* Facility will run state published ad-hoc *student N/D Child Count* in Infinite Campus (users may need to work with district administrator to be given rights to this ad-hoc).

* A comment box on this page will allow the facility to enter students who should be counted but were not produced on the Infinite Campus ad-hoc report.
